SHAPE THE FUTURE OF YOUR BUSINESS WITH COPILOT READINESS ASSESSMENT...SECURELY

" Our **Copilot Readiness Assessment** provides a critical first step by **evaluating your data governance, identifying potential vulnerabilities,and aligning with Microsoft's and Covenant's best practices** to ensure a smooth, secure integration of AI capabilities. **"**

1. **Confidence in Your Security Posture:**
Gain a comprehensive understanding of your organization's data exposure risks, enabling secure, compliant AI adoption.

2. **Proactive Identification of Hidden Vulnerabilities:**
We uncover risks like ghost users, orphaned accounts, and sensitive data sharing vulnerabilities that may otherwise go unnoticed.

3. **Alignment with Microsoft's AI Standards:**
Our assessment follows Microsoft's recommended best practices for data security, giving you peace of mind that you're ready for Copilot's AI features.

4. **Tailored Governance Improvements:**
We deliver actionable insights to help enhance data governance and compliance, preparing your organization for AI integration.

5. **Expert-Led Support with Deep Microsoft Knowledge:**
Led by experienced Microsoft partners, our team brings extensive expertise in data security, AI, and compliance.

WHY CHOOSE COVENANT'S COPILOT READINESS ASSESSMENT?

Focused Expertise: Our specialized approach goes beyond general assessments, specifically targeting Copilot readiness to ensure a secure AI adoption process.

Comprehensive and Transparent: We assess every aspect of your data security posture, providing a full picture of your strengths and areas for improvement.

Client-Centric Solutions: Working in collaboration with your team, we customize our assessments to your organization's unique needs and goals.

A TRUSTED GUIDE IN AI ADOPTION

Covenant is more than just a service provider; we're a proactive partner, thoroughly assessing your readiness while empowering you to make informed decisions. With a commitment to innovation and collaboration, we equip forward-thinking organizations to adopt AI confidently, responsibly, and securely.
